**Guiding Respectful Attitude and
Communication
with Ethics in Medical Education**

International Conference and Workshop on AETCOM

21 – 22 August 2024

<https://pimsmmm.com>

GRACE 2024

GRACE 2024 is a workshop cum conference with the objective to train and update faculty members on AETCOM modules, as per NMC curriculum. Attitude, Communication and Ethics are essential for medical practice. Pondicherry Institute of Medical Sciences started to impart these soft skills to the undergraduate students as "Humanities in Medicine", even before the recommendation of NMC, with the objective of preparing our medical graduates to have a holistic approach to medical practice. There are immense challenges to impart these soft skills, due to lack of prescribed format to teach these skills.

How you will benefit

Modern healthcare extends beyond clinical acumen. It necessitates a profound comprehension of human dynamics, effective communication, and strict ethical principles.

GRACE 2024 illuminates these challenges and provides strategies to overcome them. Be a part of this conference to navigate through the complexities of integrating soft skills into medical education.

Programme

August 21

Free Paper Session

Poster Presentation

Plenary Sessions

Panel Discussion

August 22
